

INTRODUCING
SERIES 82

**BRINGS TOGETHER OSLO AND SOMFY
TECHNOLOGY TO CREATE THE PERFECT
SYSTEM**

Pairing the slim line tracking system from the Oslo Series 81 and the discreet but powerful motorisation from Somfy, the Oslo Series 82 offers our most innovative venture yet.

SERIES 82

WHAT IS THE OSLO SERIES 82 ?

Pairing the slim line tracking system from the Oslo Series 81 and the discreet but powerful motorisation from Somfy, the Oslo Series 82 offers our most innovative venture yet.

With an incredibly tight 150mm radius bend for a motorised track, the Oslo Series 82 track can be applied in areas other motorised tracks can't. Paired with the Somfy Glydea ULTRA or Irismo battery motors, the system offers light, fluid movement with a strong carrying capacity of up to 40kg.

ADVANTAGES

- Easy clip brackets designed for ease of installation
- 150mm radius bends and continuous curves
- Available in up to 6.5 metre lengths
- 17mm x 26mm profile offers a slim design
- Modern and appealing to the eye
- Compatible with both S-Wave and Standard curtains

POWERED BY SOMFY

- Reliable, robust & discreet
- Compatible with multiple technologies (WT/DCT/RTS & Battery Operated)
- Low noise level
- Soft start and soft stop
- Smart phone app compatible
- Up to 9 months between charging for battery operation
